Sir:

A Notice of Allowance was mailed on September 11, 2006. The issue fee has not been paid.

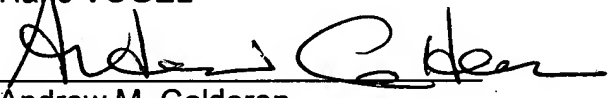

Applicants submitted a Preliminary Amendment with the filing of the application on October 31, 2003. In the preliminary amendment, the specification was amended to include headings and the insertion of two reference characters "1" and "B" in the detailed description section of the application. At the time of filing of the application, a title page was also inserted as page 1; however, the title page did not include any pagination. The title page should be considered page 1, for purposes of the preliminary amendment only.

In the preliminary amendment, Applicants noted an amendment to page 5 of the specification. This amendment included headings "**BRIEF DESCRIPTION OF THE DRAWINGS**" and "**DETAILED DESCRIPTION OF EMBODIMENTS OF THE INVENTION**", as well as the addition of a figure 1 description and an

amendment to the remaining two paragraphs to the specification. By way of clarification, as a title page was filed with the application, Applicants consider the page 5 to be the page prior to the claims section. Thus, it should be clear from the record that the amendment to page 5, as noted in the Preliminary Amendment, should be provided at the page prior to the claims section. Thus, for clarity, the above amendments are to be made to the specification on the page prior to the "claims" section (which is marked page "4").

No fee is necessary since such oversight was not due to any error by Applicant. The Examiner is invited to contact the undersigned at the telephone number listed below if anything further is needed.

Respectfully submitted,
Hans VOGEL
